

**Fourth Announcement**  
**VASBI, ICM Satellite Conference on**  
**K-theory and Noncommutative Geometry.**  
**Valladolid, Spain, August 31-September 6, 2006.**

**Local Organizer:** Guillermo Cortiñas (Valladolid)  
**Scientific Committee:** Joachim Cuntz (Münster), Max Karoubi (Paris VII), Ryszard Nest (Copenhagen), Charles Weibel (Rutgers).  
**Local Committee:** Natalia Abad, Eugenia Ellis.

**Invited Talks**

|                          |                        |
|--------------------------|------------------------|
| P. Balmer (Zurich)       | W. Lück (Münster)      |
| P. Baum (Penn State)     | R. Meyer (Göttingen)   |
| S. Gille (München)       | R. Nest (Copenhagen)   |
| V. Ginzburg (Chicago)    | A. Neeman (Canberra)   |
| A. Gorokhovsky (Boulder) | A. Thom (Göttingen)    |
| M. Kontsevich (IHES)     | C. Voigt (Münster)     |
| M. Levine (Northeastern) | M. Wodzicki (Berkeley) |

**Courses**

|                                                                                     |                          |
|-------------------------------------------------------------------------------------|--------------------------|
| Cyclic Homology                                                                     | J. Cuntz (Münster)       |
| DG-Categories                                                                       | B. Keller (Paris VII)    |
| Noncommutative geometry, characteristic classes and<br>Higher Riemann-Roch theorems | B. Tsygan (Northwestern) |
| Motivic Cohomology                                                                  | C. Weibel (Rutgers)      |
